hereby make(s) application for permission to change the

☒ Point of diversion☒ Place of use☒ Manner of use☒ of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Surface waters under final decree in the District Court of the Second Judicial District of Nevada - November 14, 1885, in water suit of Mary Jane Walsh vs. Virginia & Truckee Railroad, together with waters under lease from the State of Nevada from the Marlette Water System.

1. The source of water is Carson City Infiltration Well #25b (Redrill)

Name of stream, lake, underground, spring or other sources

2. The amount of water to be changed diversion rate as decreed, and up to 1,000 afa

Give diversion rate in cubic feet per second (CFS) AND duty in acre-feet annually (AFA).

3. The water to be used for Municipal

Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use

4. The water heretofore used for As Decreed

If for stock, state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)

NE 1/4 SW 1/4 Section 14, T. 15N., R. 20E., M.D.M., or at a point from which the Southwest corner of said Section 14 bears South 46° 20' West, a distance of 3,240 feet. (Carson City Infiltration Well #25b Redrill)

Please refer to map accompanying Application 35277.

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)

As Decreed

2019 OCT 24 PM 3:09
STATE ENGINEER'S OFFICE

RECEIVED

8-103
CC

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Refer to Exhibit A, attached

Please refer to map accompanying Application 81136.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

As Decreed: Carson City's portions of Kings Canyon Creek Decree as distributed to the Estate of Mary Kennedy (C. W. Friend), John Bath and Joshua Robinson, the Estate of James Walsh, John Quill, and Carson Water Company; Carson City's portions of Ash Canyon Creek Decree as distributed to John Bath, John Bath and Josh Robinson, H.P. Phillips, S.A. Nevers, and A.D. Treadway, as their interests may appear in said Decrees.

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from as decreed to as decreed of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing - Carson City Infiltration Well #25b and distribution system. Refer to Well Logs 19526, 95219, and 97903.

12. Estimated cost of works \$50,000

13. Estimated time required to construct works 1 year for new gauging equipment

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 1 year

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The combined sources of water not diverted and treated at the Quill Water Treatment Plant (QWTP) will be allowed to flow down Ash Canyon and Kings Canyon Creeks passing through Eagle Valley to the Carson River through Eagle Creek (the confluence of Ash and King's Creeks). Water reaching the Eagle Creek gauge station flows to the Carson River. This application seeks to quantify the water originating from the Western portion of Eagle Valley (Ash, Kings and Marlette system sources) that reaches the Eagle Creek gauge, and to place a portion of this water to beneficial use by diverting an equal or lesser volume of water through Carson City's Infiltration Wells #25b and #41b.

16. Miscellaneous remarks:

 STATE ENGINEER'S OFFICE

ATTACHMENT B**TO ACCOMPANY APPLICATIONS TO CHANGE A PORTION OF CARSON CITY SURFACE
WATER (ASH CANYON AND KINGS CANYON CREEKS) UNDER FINAL DECREE,
TOGETHER WITH WATER UNDER LEASE FROM THE STATE OF NEVADA FROM THE
MARLETTE WATER SYSTEM****ITEM 16: MISCELLANEOUS REMARKS:**

The Ash, Kings, and Marlette system flows not treated at the Quill Water Treatment Plant will be measured in the central area of Carson City as they flow to the Eagle Creek gauge. In accordance with the Ash Canyon Creek and Kings Canyon Creek Diversion Operation Plan, a monthly credit will be available for diversion by Carson City, reflecting the Ash, Kings, and Marlette waters which reach the Eagle Creek Gauge and are measured discharging to the Carson River.

The water measured and credited for pumpage from Infiltration Wells 25b and 41b for the Ash, Kings, and Marlette waters, are proposed to be a total combined duty of 2,000 acre-feet.
